ORGANIZATION: Save Life Agro

PROJECT: Save Life Agro - Website Design & Development

LETTER OF COMPLETION

Dear Husen Sayyad,

We are thrilled to formally announce the successful completion of the web design and development project for Save Life Agro. This certificate serves as official confirmation that all agreed project deliverables have been completed, tested, and handed over in full.

Over the course of this engagement, Nebula Systems has successfully implemented the following:

- ◆ A premium, modern, and highly responsive user interface.
- ◆ A fully functional Admin Panel for managing products, journals, and testimonials.
- ◆ Advanced image compression and page-speed optimizations for lightning-fast loading.
- ◆ Comprehensive Technical SEO integrations (dynamic meta tags, structured data, semantic HTML) to improve search engine ranking.
- ◆ WhatsApp integration for seamless customer inquiries.

The final website has been deployed and comprehensively tested across devices and browsers to ensure optimal performance. Ownership of the codebase, administrative credentials, and digital assets are hereby handed over to you in full.

It has been a privilege working with you to bring the vision of Save Life Agro to life online. We wish you immense success in empowering Indian farmers with your organic agricultural solutions.
